

## **AUDITION VIDEO INSTRUCTIONS:**

To ensure a smooth and efficient audition process, we kindly ask you to follow the guidelines below when submitting your audition video. Please include the following separate videos:

Singing Video: Choose a song from any of the following genres: Pop, Rnb, Rock, Electronic Pop, Funk and World.

In your audition videos, we want to see your style, your movement, and how you would perform on stage. Show us your character, your sharpness, your energy, and your personality.

Note: All vocals should be raw and unedited, with no autotune or mixing - we want to gather a really clear understanding of what you'll sound like on the Futurations stage.

ID your video: In this video, film a full-length shot of yourself from the top of your head to your feet. State the following information: Your full name, Age, Height, Location and a bit about your singing experience and skill level.

Bonus Video (Optional): If you possess dance skills and wish to showcase them, you may upload a separate "Dance Video." The dance video is entirely optional and not compulsory for the audition process.

Uploading Instructions:

- Please avoid stitching your takes together to create one continuous video.
- Upload each video separately as "Singing Video," "ID," and "Dance Video" (if applicable).

We value your time and effort, and adhering to these guidelines will help us efficiently review your audition.
